The particulars of blocks of over 50 acres and more in extent
which can be cultivated or reclaimed have already been gathered in
respect of Puttur Taluk in the year 1953. The Revenue Divisional
Officer Puttur reports that it is rather difficult to bring these
lands under reclamation as they are besides being hilly covered with
thick forest growth and that the labour and cost involved for their
reclamation may not be worth the trial at all. He also adds that
the entire extent of lands selected in this Taluk comes under the
category 'G' specified in G.O. 78 (P.L.) dated 16.3.54 and hence the
improvement of these lands will have to be taken up after providing
necessary funds as contemplated in the G.O. Meanwhile the special
staff for assignment is granting useful pieces of these lands on
assignment for cultivation purposes. One land colonisation society
is being formed at Koila and an extent of 300 acres of land has
been sanctioned for assignment to the society for the purpose of G.O.
No. 1825 dated 4.5.56 and that further action to assign these lands
in the name of the society is being expedited.

Yours faithfully

For Collector.

May be lodged as no action
seems necessary on this
